

The Sinclair group of TV stations plan to air an anti-Kerry documentary is in my opinion un-newsworthy. If they wish to show a bias documentary, they should have to buy time just like anyone else would. I would urge the FCC to levy substantial fines to Sinclair if they do in fact air force their stations to air this commercial. If they are allowed to do this, you can be assured that other groups will make a practice of airing documentaries that have no relation to factual events on the public airwaves. Thank You.
